

## Winged Wonders (Grades 3-4)

Students will tour Wildrock's bird sanctuary to learn what makes an ideal habitat for birds. They will discover the importance of native plants and learn how to conduct a habitat assessment. Students will participate in several inquiry stations where they will learn bird identification and adaptations. Students will also enjoy the wonderful world of bird watching by using binoculars on an overlook.

This trip includes an hour of play-based learning on Wildrock's Nature Playscape.
